Work Experience

Wald DX

May 2026 – September 2026

Full Stack Developer & Infrastructure Manager (Intern)

Hiraizumi, Japan / Remote (Cambodia)

- Build **2 client projects** (NDA) in a **3-person team**: **Express.js** backend (APIs, database, system design) and **NextJs** frontend.
- Managed all of the project's infrastructure and services as well as managing the business's payment services.
- Made requirements, presented projects and our progress to clients; learn about various contact points in a business.

Chiba Interior System - Wald DX

May 2026 – September 2026

Full Stack Developer (Backend Focus)

Hiraizumi, Japan / Remote (Cambodia)

- Built a customer and curtain cutting management system for the company staff; now in a **4-person team**.
- **Backend (NextJS)**: auth, store, and commerce features, database schema, and API documentation.
- **Frontend (NextJs)**: landing page and subdomain storefront pages connected to the API.

HartBran

August 2026 – Present

Co-Founder & Product Lead

Hybrid, Phnom Penh, Cambodia

- Led the backend team: set priorities, assigned tasks, guided developers, and ran check-ins every 2 weeks.
- Built the company website backend (**Express.js**, API, schema).
- Led product research for the HartBran MVP: **5 seller interviews**, an **30-respondent survey**, and a **7-platform competitor analysis**. Used the findings to reach the **FirstWave AIM 30**.

Personal Projects

JobFit | *Express.js*

2026

- Web app where users upload a CV and search jobs across multiple Cambodian job sites. Built the backend in a **4-person team**, including **multi-platform job scraping** and the **AI prompt pipeline**.

PhnomPath Logistics | *Express.js, TypeScript*

2026

- Same-day delivery app that lets online and in-store sellers deliver to customers within hours. Built most backend features in a **3-person team**, including **route optimization** for delivery planning.

KjeYPleng | *Express.js, TypeScript, React Vite*

2024

- Music Instrument Marketplace Application: Lets the user lend, rent, buy, and sell their music instruments. This was a personal full-stack development project done as a **solo project**.

Leadership & Activities

Lead in a competition | *FirstWave AIM Program*

August – Present

- One of 30 selected for the FirstWave AIM Program (out of 300 applicants); served as Team Lead throughout, coordinating cross-functional activities and team communication.

Project Lead | *Academic & Professional Projects*

2025 – Present

- Lead multiple small and medium-sized project teams across coursework and work, with most projects delivering strong results.

Volunteer Teaching Assistant | *Nagashima & Hiraizumi Elementary Schools, Japan*

May – July 2026

- Helped teachers look after **20 students**, joined daily activities, and shared culture between Cambodia and Japan.
